

# HASS - Satisfactory - Year 3

## Portfolio summary

This portfolio of student work shows that the student can identify individuals, events and aspects of the past that have significance in the present (WS2, WS3, WS7). The student identifies and describes aspects of the community that have changed and remained the same over time (WS2). The student describes the diverse characteristics of different places at the local scale (WS2, WS4) and identifies and describes similarities and differences between the characteristics of these places (WS2, WS4). The student identifies connections between people and the characteristics of places (WS1, WS2). The student explains the role of rules in the community and the importance of making decisions democratically (WS6, WS8). The student identifies the importance of different celebrations and commemorations for different groups (WS1, WS2, WS3, WS7). The student explains how and why people participate in and contribute to the community (WS1, WS3, WS8).

The student poses questions and locates and collects information from sources, including observations, to answer these questions (WS1, WS2). The student examines information to identify a point of view (WS6) and interprets data to identify and describe simple distributions (WS1). The student draws simple conclusions and shares views on an issue (WS3). The student sequences information about events and the lives of individuals in chronological order (WS2). The student records and represents data in different formats, including labelled maps using basic cartographic conventions (WS1, WS4, WS5). The student reflects on learning to suggest individual action in response to an issue or challenge (WS3, WS6). The student communicates ideas, findings and conclusions in oral, visual and written forms using simple discipline-specific terms (WS1, WS3, WS6, WS7, WS8).

## Harmony Day

### Sample summary

Students completed a teacher-created worksheet to answer questions, and gather and interpret information associated with Harmony Day (21 March). As part of the task students completed a survey of the cultural heritage of their year group, and recorded and drew conclusions from the resultant data. The task was completed during class time over two 50-minute lessons during the week of the celebration.

## Achievement standard

### Learning Area

### Subject - History

### Subject - Geography

### Subject - Civics and Citizenship

By the end of Year 3, students identify individuals, events and aspects of the past that have significance in the present. They identify and describe aspects of their community that have changed and remained the same over time. They describe the diverse characteristics of different places at the local scale and identify and

describe similarities and differences between the characteristics of these places. They identify connections between people and the characteristics of places. Students explain the role of rules in their community and the importance of making decisions democratically. They identify the importance of different celebrations and commemorations for different groups. They explain how and why people participate in and contribute to their communities.

Students pose questions and locate and collect information from sources, including observations, to answer these questions. They examine information to identify a point of view and interpret data to identify and describe simple distributions. They draw simple conclusions and share their views on an issue. They sequence information about events and the lives of individuals in chronological order. They record and represent data in different formats, including labelled maps using basic cartographic conventions. They reflect on their learning to suggest individual action in response to an issue or challenge. Students communicate their ideas, findings and conclusions in oral, visual and written forms using simple discipline-specific terms.

### Worksheet

The worksheet is titled "Harmony Day" and features a header with flags from various countries. It contains several sections with handwritten student responses:

- Section 1:** "What does 'Harmony' mean?" with the response "peace, power and working together".
- Section 2:** "How did we celebrate Harmony Day?" with the response "all the classes made harmony by people and we walked into the school and we had a parade on the street".
- Section 3:** "Why do we celebrate Harmony Day?" with the response "we celebrate harmony day because we are lucky to have no one else but we are all together".
- Section 4:** "The theme for Harmony Day is 'Our Diversity is our Strength'. What does this mean to us here at school?" with the response "we have many different cultures and work together".
- Section 5:** "Draw what you think is a good symbol to show the meaning of 'Harmony Day'." Below this is a drawing titled "My Harmony Day Symbol" showing four diverse people (two women and two men) of different ethnicities holding hands in a circle.

### Annotations

- 1 Learning Area**  
Identifies the role played by a particular community commemoration
- 2 Subject - History**  
Identifies the role played by a particular community commemoration
- 3 Learning Area**  
Responds to questions using texts containing simple terms
- 4 Learning Area**  
Represents the theme of a commemoration in visual form
- 5 Subject - Civics and Citizenship**  
Creates a visual text to represent their community

## My place

### Sample summary

Students completed a series of activities associated with a teacher-led reading and discussion of 'My Place' by Nadia Wheatley and Donna Rawlins. Students completed a Venn diagram to record similarities and differences between known or familiar places. Students annotated teacher-provided aerial photographs of the local area to indicate the varying uses of places. These photographs and annotations were then presented as a classroom display. Finally, students created their own drawings and text, using the structures and language features of 'My Place' as a template. The students' pages were printed and shared as a whole-class publication entitled 'Our Places'. All of these activities took place in class over a period of three weeks.

- 8 **Subject - History**  
Creates a text using simple terms to denote the passing of time

## 'Stolen'

### Sample summary

Students were engaged in a series of activities associated with the theme of reconciliation. Students listened

to a teacher-reading of 'The Shack that Dad Built' by Elaine Russell and completed a tabular comparison of lives and experiences. Students listened to a teacher-reading of 'Stolen Girl' by Trina Saffioti and completed a Venn diagram to identify similarities and differences in lives. Students viewed selected sections of the film 'Rabbit Proof Fence', listened to the music and lyrics of Archie Roach and completed an acrostic poem for the word STOLEN. These activities took place in class across five weeks and culminated in a whole-school assembly on National Sorry Day (26 May) at which students read their poems.

## My island

### Sample summary

Students explored a range of maps through interactive activities, atlases and games. Students used grid references and compass directions to identify the location of features on a teacher-provided map. Students then created their own island maps and used grid references to identify the location of selected features. These activities took place in class over a period of three weeks.

# Australia and its neighbours

## Sample summary

Students labelled outline maps to show the location of the following: the states, territories and capital cities of Australia; some of the major natural features of Australia; and Australia's neighbouring countries in the Asia-Pacific region. Students were supported in this task by classroom resources such as globes, wall maps, atlases and digital applications. The task was completed during two 50-minute lessons.

## Save the bushland

### Sample summary

Students undertook a teacher-led excursion to a local bushland area that had been marked for potential redevelopment. Students examined and discussed arguments for and against the redevelopment. Students then wrote letters to the editor of the local newspaper asking for the redevelopment to be stopped. The students' letters were word-processed, printed and posted on a 'community action' noticeboard in the classroom. The task, including time for the excursion as well as exploring the language and structural features of the written text, took place over six 50-minute lessons.

**Anzac Day invitation**

**Sample summary**

Students explored the important symbols associated with the commemoration of Anzac Day (25 April). The teacher and teacher-librarian provided students with pictorial sources and real or replica artefacts using a 'memorial box' borrowed from the Australian War Memorial. Students then created invitations to the local Anzac Day service using annotated drawings of a selection of the symbols. The task was completed in class over four 50-minute lessons.

## Our class rules

### Sample summary

Students discussed the role of rules in the classroom and were asked to propose lists of rules for members of the class to follow. The lists were word-processed and posted on the classroom noticeboard. One of these lists is provided as the work sample. Students then used stickers to identify the most important rules to be followed. The teacher collated the votes and the five most popular rules became the agreed core classroom rules for the year. The task took place in class during the first week of the new school year.
