ACARA has published over ninety new Science elaborations to help teachers incorporate Aboriginal and Torres Strait Islander Histories and Cultures into the teaching and learning of the Australian Curriculum: Science.

To provide further support, teacher background information is being developed and published for each of the Aboriginal and Torres Strait Islander Histories and Cultures Science elaborations.

As you browse the Australian Curriculum: Science content descriptions, you will find the Science elaborations. Click on the <Elaborations> box to open it.

After clicking on the <Read more> hyperlink, you will be taken to the relevant teacher background information page.

The elaborations provide scientifically rigorous examples and support for teachers to incorporate Aboriginal and Torres Strait Islander Histories and Cultures into their teaching of core science concepts.

A downloadable table with live links detailing all of the Science elaborations across year levels can be located at: https://australiancurriculum.edu.au/f-10-curriculum/cross-curriculum-priorities/aboriginal-and-torres-strait-islander-histories-and-cultures/ Locate and click the following image:
