French	Years 1 and 2	Years 3 and 4	Years 5 and 6
	<b>Achievement standard</b>		
	<p>By the end of Year 2, students use French to interact and share information related to the classroom and themselves. They use cues to respond to questions and instructions. They know and use basic French sound patterns, intonation, rhythm and simple formulaic expressions. They locate and convey key items of information in texts using non-verbal, visual and contextual cues to help make meaning. They use familiar words and modelled language to create text.</p> <p>Students understand that French has rules for non-verbal communication, pronunciation and writing. They give examples of similarities and differences between some features of French and English. They understand that language is connected with culture and identity, and notice how this is reflected in their own language, culture and identity.</p>	<p>By the end of Year 4, students use French to initiate structured interactions to share information related to the classroom and their personal world. They use modelled language to participate in oral and written activities that involve plans and transactions. They locate and respond to key items of information in texts using strategies to help interpret and convey meaning in familiar contexts. They use modelled language and basic syntax to create and present text.</p> <p>Students understand that French has language conventions and grammar rules to create and make meaning and that some terms have specific cultural meanings. Students identify patterns in French and make comparisons between French and English. They understand that the French language is connected with culture and identity, and identify how this is reflected in their own language, culture and identity.</p>	<p>By the end of Year 6, students initiate and use strategies to maintain interactions in French related to their immediate environment. They collaborate in oral and written activities that involve the language of transaction and problem-solving, to share information, ideas and preferences. They use strategies to locate and interpret information and ideas in texts, and demonstrate understanding by responding in French or English, adjusting their response appropriately to context, purpose and audience. They create texts, selecting and using a variety of vocabulary and sentence structures to suit context, and show understanding of how some language reflects cultural practices. They sequence information and ideas and use conventions appropriate to text type.</p> <p>Students apply rules for pronunciation, spelling, punctuation and modelled grammatical structures when creating and responding in French. They use metalanguage to compare frequently used language features in French and English. They understand that the French language is connected with culture and identity, and consider how this is reflected in their own language, culture and identity.</p>
